INDEX OF SUBJECTS

Abscisic acid content, germination and hypocotyl emergence and the effect of heat treatment of watermelon seed (Demir and van der Venter), 453

Advances in Hemp Research, edited by P. Ranalli, reviewed by I. M. Morrison, 526

Advances in Hybrid Rice Technology, edited by S. S. Virmani, E. A. Siddiq and K. Muralidharan, reviewed by N. W. Simmonds, 289

Against the Grain: The Genetic Transformation of Global Agriculture, by M. Lappé and B. Bailey, reviewed by Roger Hull, 520

Agriculture and the Environment. Perspectives on Sustainable Rural Development, edited by E. Lutz, reviewed by W. Slee, 517

Agriculture in the Tropics (Third Edition), edited by C. C. Webster and P. N. Wilson reviewed by M. N. Arnold, 127

Agriculture, Fertilizers and the Environment, by M. Lægreid, O. C. Bøckman and O. Kaarstaad, reviewed by D. J. Greenland, 526

Alfisol (rainfed) and the influence of nitrogen-fixing trees and fertilizer nitrogen levels on the growth, yield and nitrogen uptake of cowpea (Suresh and Rao), 41

Allelopathy in Rice, edited by M. Olofsdotter, reviewed by D. E. Johnson, 287

Alternaria sesami (tolerance level of) and the effect of seed infection on yield of sesame in Kenya (Ojiambo, Ayiecho, Narla and Mibey), 335

Alternative Irrigation. The Promise of Runoff Agriculture, by C. J. Barrow, reviewed by B. D. Sloane, 517

Arachis hypogaea see groundnut

Artificial Intelligence for Biology and Agriculture, edited by S. Panigrahi and K. C. Ting, reviewed by B. Marshall, 129

Banana Breeding and Biotechnology. Commodity Advances through Banana Improvement Project Research. 1994–1998, edited by G. J. Persley and P. George, reviewed by R. W. Smith, 418

Barley (continuous) and fallow–barley rotations compared with forage legume–barley (on-farm trials in north-west Syria) (Christiansen, Bounejmate, Bahhady, Thomson, Mawlawi and Singh), 195

Barley-based cropping systems and the comparison of conservation tillage sytems in northern Syria (Jones), 15

Cacao trees (hybrid) and the effect of planting density on the incidence of witches' broom disease and yield in a young plantation (Dias, Santos, Santos, Almeida, Cruz and Carneiro), 501

Cajanus cajan see pigeonpea

Cassava germplasm and its genetic variation in response to potassium (El-Sharkawy and Cadavid), 323

Cassava, tannia, sweet potato, yam and taro, the major tropical root crops, and the influence of shade on stomatal density, leaf size and other leaf characteristics (Onwueme and Johnston), 509

CERES–Maize model (evaluation of the) in simulating *campesino* farmer yields in the highlands of central Mexico (Castelá-Ortega, Fawcett, Arriaga-Jordan and Smith), 479

Citrullus lanatus see watermelon

Climate Change and the Global Harvest, by C. Rosenzweig and D. Hillel, reviewed by J. C. Holmes, 288

Colletotrichum gloeosporioides and a semi-selective medium for its isolation from soil (Ekefan, Simons, Nwankiti and Peters), 313

Colocasia esculenta see taro

Conservation tillage systems (comparison of) in barley-based cropping systems in northern Syria (Jones), 15

Containment Facilities and Safeguards for Exotic Plant Pathogens and Pests, edited by R. P. Kahn and S. B. Mathur, reviewed by S. R. H. Langrell, 416

Cotton Fibers, by A. S. Basra, reviewed by J. S. Watson, 522

Cotton responses to shade at different growth stages: growth, lint yield and fibre quality (Zao and Oosterhuis), 27

Cover Crops in Hillside Agriculture: Farmer Innovation with Mucuna, by D. Buckles, B. Triomphe and G. Sain, reviewed by J. M. Suttie, 286

Cowpea growth, yield and nitrogen uptake on a rainfed Alfisol and the influence of nitrogen-fixing trees and fertilizer nitrogen levels (Suresh and Rao), 41

Crop residues in India (a project on feeding of) and

farming systems research (Shiere, Singh and De Boer), 51

Cultivating Diversity: Agrobiodiversity and Food Security, by L. A. Thrupp, reviewed by V. L. Chopra, 128

Cutting (effects of) on the nitrogen economy and dry matter yield of lablab grown under monoculture and intercropped with maize in northern Thailand (Devkota and Rerkasem), 459

Data (aberrant) in field experiments (Dyke and Pearce), 343

Design perspectives in long-term experimentation (Riley), 151

Dioscorea esculenta see yam

Directions in Tropical Agroforestry Research, edited by P. K. R. Nair and C. R. Latt, reviewed by J. H. McAdam, 128

Egypt, sustainability research and a new research paradigm (Aboul Enien, Abdel Shafi, Abdel Monem, Kamel, Solh, Bedier and Khalifa), 265

Engineering Genesis: The Ethics of Genetic Engineering in Non-Human Species, edited by D. Bruce and A. Bruce, reviewed by R. Hull, 128

Environment × family and environment × genotype interactions for sugarcane across two contrasting marginal environments in Mauritius (Bissessur, Tilney-Bassett, Lim Shin Chong, Domaingue and Julien), 101

Fallow–barley rotations and continuous barley compared with forage legume–barley in on-farm trials in north-west Syria (Christiansen, Bounejmate, Bahhady, Thomson, Mawlawi and Singh), 195

Family × environment and genotype × environment interactions for sugarcane across two contrasting marginal environments in Mauritius (Bissessur, Tilney-Bassett, Lim Shin Chong, Domaingue and Julien), 101

Farmers, Gene Banks and Crop Breeding. Economic Analysis of Diversity in Wheat, Maize and Rice, edited by M. Smale, reviewed by N. W. Simmonds, 130

Farming systems research applied in a project on feeding of crop residues in India (Shiere, Singh and De Boer), 51

Feed quality and forage yields of *Lablab purpureus* and milk yields (trade-offs between) in relation to planting and harvesting schedules (Agyemang, Okike, Makun, and Magaji), 435

Feeding of crop residues in India (a project on) and farming systems research (Shiere, Singh and De Boer), 51

Financing Agricultural Research: A Sourcebook, edited by S. R. Tabor, W. Janssen and H. Bruneau, reviewed by M. Collinson, 285

Forage legume–barley compared with fallow–barley rotations and continuous barley in on-farm trials in north-west Syria (Christiansen, Bounejmate, Bahhady, Thomson, Mawlawi and Singh), 195

Forage production of intercropped maize and soyabean cultivars (De Rezende and Ramalho), 91

Forage Seed Production. Volume 2. Tropical and Subtropical Species, edited by D. S. Loch and J. E. Ferguson, reviewed by J. M. Suttie, 415

Forage yields and feed quality of *Lablab purpureus* and milk yields (trade-offs between) in relation to planting and harvesting schedules (Agyemang, Okike, Makun, and Magaji), 435

Genetic Engineering, Food and our Environment, edited by L. Anderson, reviewed by Roger Hull, 287

Genetic variation within cassava germplasm in response to potassium (El-Sharkawy and Cadavid), 323

Genotype × environment and family × environment interactions for sugarcane across two contrasting marginal environments in Mauritius (Bissessur, Tilney-Bassett, Lim Shin Chong, Domaingue and Julien), 101

Germination of wild sunflower and seed treatment methods and duration effects (Akinola, Larbi, Farinu and Odunsi), 63

Germination, hypocotyl emergence and abscisic acid content of watermelon seed and the effect of heat treatment (Demir and van der Venter), 453

Glycine max see soyabean

Grain legumes (long-term effects of) on rainy-season sorghum productivity in a semi-arid tropical Vertisol (Rego and Nageswara Rao), 205

Grass: its Production and Utilization (Third Edition), edited by A. Hopkins, reviewed by J. M. Suttie, 522

Groundnut (bambara) landraces in Tanzania and the influence of sowing date on the growth and yield (Collinson, Sibuga, Tarimo and Azam-Ali), 1

Groundnut (irrigated cultivars) in a hot environment and their phenotypic and yield responses (Ishag), 303

Groundnut leaf spot diseases in India and a weather-based scheme to advise on limited chemical control (Butler, Wadia, Reddy, Das, Johnson, Meena Kumari, Murty, Sreenivas and Srivastava), 469

Hazard Identification of Agricultural Biotechnology. Finding Relevant Questions, by A. van Dommelen, reviewed by D. Robinson, 518

Impact of Rice Research, edited by P. L. Pangali and M. Hossain, reviewed by J. Coulter, 418
India and a weather-based scheme to advise on limited chemical control of groundnut leaf spot diseases (Butler, Wadia, Reddy, Das, Johnson, Meena Kumari, Murty, Sreenivas and Srivastava), 469
India and farming systems research applied in a project on feeding of crop residues (Shiere, Singh and De Boer), 51
Indo-Gangetic Plains, salinity build-up and changes in the rice–wheat system (Gupta and Abrol), 273
Inducible Gene Expression in Plants, edited by P. H. S. Reynolds, reviewed by G. C. Machray, 517
Integrating Biodiversity in Agricultural Intensification: Towards Sound Practices, by J. P. Srivastava, N. J. H. Smith and D. A. Forno, reviewed by John Coulter, 521
Intellectual Property Rights in Agriculture, edited by U. Lele, W. Lesser and G. Horstkotte-Wesseler, reviewed by Eric Roberts, 524
Intercropped maize and soyabean cultivars and forage production (De Rezende and Ramalho), 91
Intercrops of sorghum–cowpea and pearl millet–cowpea and the effect of plant density on their yield in northern Nigeria (Craufurd), 379
Ipomoea batatas see sweet potato

Kenya and the effect of seed infection and the tolerance level of *Alternaria sesami* on the yield of sesame (Ojiambo, Ayiecho, Narla and Mibey), 335

Lablab (dry matter yield of) grown under monoculture and intercropped with maize in northern Thailand and the effects of cutting on the nitrogen economy (Devkota and Rerkasem), 459
Lablab purpureus and trade-offs between forage yields, feed quality and milk yields in relation to planting and harvesting schedules (Agyemang, Okike, Makun, and Magaji), 435
Leaf spot diseases of groundnut in India and a weather-based scheme to advise on limited chemical control (Butler, Wadia, Reddy, Das, Johnson, Meena Kumari, Murty, Sreenivas and Srivastava), 469
Legume (forage)–barley compared with fallow–barley rotations and continuous barley in on-farm trials in north-west Syria (Christiansen, Bounejmate, Bahhady, Thomson, Mawlawi and Singh), 195
Lens culinaris see lentil
Lentil and the relationship of flower and pod numbers per inflorescence with seed yield (Tambal, Erskine, Baalbaki and Zaiter), 369
Lettuce, Endive and Chicory, by E. J. Ryder, reviewed by Chris Wien, 525
Ley-farming (another unsuccessful attempt to introduce in the Mediterranean Basin): the Tah village project in Syria (Christiansen, Bounejmate, Sawmy-Edo, Mawlawi, Shomo, Cocks and Nordblom), 181
Lime additions (long-term effects of) on sugarcane yield and soil chemical properties in north Queensland (Noble and Hurney), 397

Maize and soyabean cultivars (intercropped) and forage production (De Rezende and Ramalho), 91
Maize and the effects of cutting on the nitrogen economy and dry matter yield of lablab grown under monoculture and intercropped in northern Thailand (Devkota and Rerkasem), 459
Management of Nitrogen and Water in Potato Production, edited by A. J. Haverkort and D. K. L. MacKerron, reviewed by Paul Harris, 524
Manihot esculenta see cassava
Mauritius (two contrasting marginal environments in) and family × environment and genotype × environment interactions for sugarcane (Bissessur, Tilney-Bassett, Lim Shin Chong, Domaingue and Julien), 101
Mediterranean Basin and the Tah village project in Syria: another unsuccessful attempt to introduce ley-farming (Christiansen, Bounejmate, Sawmy-Edo, Mawlawi, Shomo, Cocks and Nordblom), 181
Mediterranean-type environment (in a) and tillage systems and stubble management in relation to crop yield and soil moisture (Pala, Harris, Ryan, Makboul and Dozom), 223
Mexico (the highlands of central) and the evaluation of the CERES–Maize model in simulating *campesino* farmer yields (Castelá-Ortega, Fawcett, Arriaga-Jordan and Smith), 479
Milk yields and feed quality and forage yields of *Lablab purpureus* (trade-offs between) in relation to planting and harvesting schedules (Agyemang, Okike, Makun, and Magaji), 435
Mineral Nutrition of Crops: Fundamental Mechanisms and Implications, edited by Z. Rengel, reviewed by Alan Scaife, 520
Model (evaluation of the CERES–Maize) in simulating *campesino* farmer yields in the highlands of

central Mexico (Castelá-Ortega, Fawcett, Arriaga-Jordan and Smith), 479

Nigeria (northern) and the effect of plant density on the yield of sorghum–cowpea and pearl millet–cowpea intercrops (Craufurd), 379
Nitrogen fertilizer rates and water supply (optimizing time distribution of) in relation to targeted wheat yields (Sandhu, Arora, Chand, Sandhu, and Khera), 115
Nitrogen-fixing trees and fertilizer nitrogen levels (the influence of) on the growth, yield and nitrogen uptake of cowpea on a rainfed Alfisol (Suresh and Rao), 41

On-farm trials with forage legume–barley compared with fallow–barley rotations and continuous barley in north-west Syria (Christiansen, Bounejmate, Bahhady, Thomson, Mawlawi and Singh), 195

Pasture legumes selected for species mixtures in dry-subhumid West Africa, relative palatability and seasonal agronomic performance (Peters, Tarawali and Schulte-Kraft), 353
Paying for Agricultural Productivity, edited by J. M. Alston, P. G. Pardey and V. H. Smith, reviewed by M. Collinson, 523
Pearl millet–cowpea and sorghum–cowpea intercrops and the effect of plant density on their yield in northern Nigeria (Craufurd), 379
Pearl millet–cowpea productivity and the long-term effects of tillage, phosporous fertilization and crop rotation in the West African Sahel (Subbarao, Renard, Payne and Bationo), 243
Pennisetum glaucum see pearl millet
Pest Management of Rice Farmers in Asia, edited by K. L. Heong and M. M. Escalda, reviewed by J. A. Pickett, 415
Phosporous fertilization, tillage and crop rotation, (long-term effects of) on pearl millet-cowpea productivity in the West African Sahel (Subbarao, Renard, Payne and Bationo), 243
Pigeonpea cultivars, radiation absorption, growth and yield, as influenced by sowing date (Patel, Mehta and Shekh), 291
Pigeonpea rhizobia prevalence and crop response to inoculation in Zimbabwean smallholder-managed soils (Mapfumo, Mpepereki and Mafongoya), 423
Plant Virus Disease Control, edited by A. Hadidi, R. K. Khetarpal and H. Koganaezawa, reviewed by D. J. Robinson, 127
Plant–Microbe Interactions. Volume 4, edited by G. Stacey and N. Keen, reviewed by I. R. Crute, 417
Potassium (response to) and genetic variation within cassava germplasm (El-Sharkawy and Cadavid), 323

Queensland (north) and the long-term effects of lime additions on sugarcane yield and soil chemical properties (Noble and Hurney), 397

Rainfed Lowland Rice: Advances in Nutrient Management Research, edited by J. K. Ladha, L. Wade, A. Doberman, W. Reichardt, G. J. D. Kirk and C. Piggin, reviewed by A. Scaife, 289
Remote Sensing in Water Resources Management. The State of the Art, by W. G. M. Bastiaanssen, reviewed by J. Finch, 418
Resource Management in Rice Systems: Nutrients, edited by V. Balasubramanian, J. K. Ladha and G. L. Denning, reviewed by P. J. Gregory, 286
Rhizobia prevalence and pigeonpea crop response to inoculation in Zimbabwean smallholder-managed soils (Mapfumo, Mpepereki and Mafongoya), 423
Rice (wet seeded) and increasing water productivity and weed suppression: effect of water management and rice genotypes (Tuong, Pablico, Yamauchi, Confesor and Moody), 71
Rice–wheat system changes and salinity build-up in the Indo-Gangetic Plains (Gupta and Abrol), 273
Root Demographics and their Efficiences in Sustainable Agriculture, edited by J. E. Box Jr, reviewed by K. R. Skene, 288

Sacharrum spp. *see* sugarcane
Sahel (West African) and long-term effects of tillage, phosporous fertilization and crop rotation on pearl millet–cowpea productivity (Subbarao, Renard, Payne and Bationo), 243
Salinity build-up and changes in the rice–wheat system of the Indo-Gangetic Plains (Gupta and Abrol), 273
Seed treatment methods and duration effects on germination of wild sunflower (Akinola, Larbi, Farinu and Odunsi), 63
Septoria *on Cereals: A Study of Pathosystems*, edited by J. A. Lucas, P. Bowyer and H. M. Anderson, reviewed by A. C. Newton, 285
Sesame in Kenya, tolerance level of *Alternaria sesami* and the effect of seed infection on yield (Ojiambo, Ayiecho, Narla and Mibey), 335
Sesamum indicum see sesame
Shade (influence of) on stomatal density, leaf size and other leaf characteristics in the major tropical root crops, tannia, sweet potato, yam, cassava and taro (Onwueme and Johnston), 509

Shade and cotton responses at different growth stages: growth, lint yield and fibre quality (Zao and Oosterhuis), 27

Sorghum (rainy-season productivity in a semi-arid tropical Vertisol) and the long-term effects of grain legumes (Rego and Nageswara Rao), 205

Sorghum–cowpea and pearl millet–cowpea intercrops and the effect of plant density on their yield in northern Nigeria (Craufurd), 379

Sowing date (influence of) and radiation absorption, growth and yield of pigeonpea cultivars (Patel, Mehta and Shekh), 291

Sowing date (influence of) on the growth and yield of bambara groundnut landraces in Tanzania (Collinson, Sibuga, Tarimo and Azam-Ali), 1

Soyabean and maize cultivars (intercropped) and forage production (De Rezende and Ramalho), 91

Stubble management and tillage systems in a Mediterranean-type environment in relation to crop yield and soil moisture (Pala, Harris, Ryan, Makboul and Dozom), 223

Sugarcane yield and soil chemical properties in north Queensland and the long-term effects of lime additions (Noble and Hurney), 397

Sugarcane, family × environment and genotype × environment interactions across two contrasting marginal environments in Mauritius (Bissessur, Tilney-Bassett, Lim Shin Chong, Domaingue and Julien), 101

Sunflower (wild) and seed treatment methods and duration effects on germination (Akinola, Larbi, Farinu and Odunsi), 63

Sustainability of Rice in the Global Food System, edited by N. G. Dowling, S. M. Greenfield and K. S. Fischer, reviewed by R. B. Mathews, 286

Sustainability research in Egypt and a new research paradigm (Aboul Enien, Abdel Shafi, Abdel Monem, Kamel, Solh, Bedier and Khalifa), 265

Sustainable productivity (anticipatory long-term research for) (Jones), 137

Sweet potato, tannia, yam, cassava and taro, the major tropical root crops, and the influence of shade on stomatal density, leaf size and other leaf characteristics (Onwueme and Johnston), 509

Syria (north-west) and on-farm trials with forage legume–barley compared with fallow–barley rotations and continuous barley (Christiansen, Bounejmate, Bahhady, Thomson, Mawlawi and Singh), 195

Syria (Tah village project) another unsuccessful attempt to introduce ley-farming in the Mediterranean Basin (Christiansen, Bounejmate, Sawmy-Edo, Mawlawi, Shomo, Cocks and Nordblom), 181

Tah village project in Syria: another unsuccessful attempt to introduce ley-farming in the Mediterranean Basin (Christiansen, Bounejmate, Sawmy-Edo, Mawlawi, Shomo, Cocks and Nordblom), 181

Tannia, sweet potato, yam, cassava and taro, the major tropical root crops, and the influence of shade on stomatal density, leaf size and other leaf characteristics (Onwueme and Johnston), 509

Tanzania and the influence of sowing date on the growth and yield of bambara groundnut landraces (Collinson, Sibuga, Tarimo and Azam-Ali), 1

Taro, tannia, sweet potato, yam and cassava, the major tropical root crops, and the influence of shade on stomatal density, leaf size and other leaf characteristics (Onwueme and Johnston), 509

Thailand (northern) and the effects of cutting on the nitrogen economy and dry matter yield of lablab grown under monoculture and intercropped with maize (Devkota and Rerkasem), 459

The Dilemmas of Water Division. Considerations and Criteria for Irrigation System Design, by L. Horst, reviewed by H. Gunston, 518

The Epidemiology of Plant Diseases, edited by D. G. Jones, reviewed by R. Kennedy, 416

The Exploitation of Plant Genetic Information. Political Strategies in Crop Development, by R. Pistorius and J. van Wijk, reviewed by G. Jenkins, 523

The Formative Years of Plant Pathology in the United States, by C. L. Campbell, P. D. Peterson and C. S. Griffith, reviewed by J. M. Waller, 525

The Genetics and Exploitation of Heterosis in Crops, edited by J. G. Coors and S. Pandey, reviewed by M. J. Kearsey, 521

The Living Fields: Our Agricultural Heritage, by J. R. Harlan, reviewed by B. Pickersgill, 130

The Living Land, by J. Pretty, reviewed by T. J. Maxwell, 527

Theobroma cacao see cacao

Tillage systems and stubble management in a Mediterranean-type environment in relation to crop yield and soil moisture (Pala, Harris, Ryan, Makboul and Dozom), 223

Tillage, phosporous fertilization and crop rotation, (long-term effects of) on pearl millet–cowpea productivity in the West African Sahel (Subbarao, Renard, Payne and Bationo), 243

Time trends in crop yields in long-term experiments (Jones), 165

Tithonia diversifolia see sunflower (wild)

Tropical Agroforestry, by P. Huxley, reviewed by J. H. McAdam, 519

Vegetable Seed Production (Second Edition), by R. A. T. George, reviewed by P. Dawson, 520
Vertisol (semi-arid tropical) and the long-term effects of grain legumes on rainy-season sorghum productivity (Rego and Nageswara Rao), 205
Vigna subterranea see groundnut (bambara)
Vigna unguiculata see cowpea

Water productivity (increasing) and weed suppression of wet seeded rice: effect of water management and rice genotypes (Tuong, Pablico, Yamauchi, Confesor and Moody), 71
Water supply and fertilizer nitrogen rates (optimizing time distribution of) in relation to targeted wheat yields (Sandhu, Arora, Chand, Sandhu, and Khera), 115
Watermelon seed and the effect of heat treatment on germination, hypocotyl emergence and abscisic acid content (Demir and van der Venter), 453
Weather-based scheme (a) to advise on limited chemical control of groundnut leaf spot diseases in India (Butler, Wadia, Reddy, Das, Johnson, Meena Kumari, Murty, Sreenivas and Srivastava), 469
Weed suppression and increasing water productivity of wet seeded rice: effect of water management and rice genotypes (Tuong, Pablico, Yamauchi, Confesor and Moody), 71
West Africa (dry-subhumid) and the relative palatability and seasonal agronomic performance of selected pasture legumes for species mixtures (Peters, Tarawali and Schulte-Kraft), 353
Wheat yields (targeted) and optimizing time distribution of water supply and fertilizer nitrogen rates (Sandhu, Arora, Chand, Sandhu, and Khera), 115
Wheat. Research Needs beyond 2000 AD, edited by S. Najarajan, G. Singh and B. S. Tyagi, reviewed by F. G. H. Lupton, 129
Wheat: Ecology and Physiology of Yield Determination, edited by E. H. Satorre and G. A. Slafer, reviewed by R. B. Austin, 524
Witches' broom disease (incidence of) in a young plantation of hybrid cacao trees and the effect of planting density on yield (Dias, Santos, Santos, Almeida, Cruz and Carneiro), 501

Xanthosoma sagittifolium see tannia

Yam, tannia, sweet potato, cassava and taro, the major tropical root crops, and the influence of shade on stomatal density, leaf size and other leaf characteristics (Onwueme and Johnston), 509

Zea mays see maize
Zimbabwean smallholder-managed soils and pigeonpea rhizobia prevalence and crop response to inoculation (Mapfumo, Mpepereki and Mafongoya), 423
